- **Designed and made for the control of CA rooms**
- **Specific sensors with very long lifetime**
- **Autonomous**
- **Light weight and compact**
- **Tracking : memorizes and stores each analysis**
- **Simplified start up and operating**

RELIABLE AND EASY TO OPERATE

• FEATURES

• Sensors

O₂ : zirconium monoxide cell, lifetime superior to 3 years, range 0 - 25%

CO₂ : scrubbing detection through infra red (NDIR)

• **Accuracy : 0,1%**

• **Resolution : 0,1%**

• **Built-in sampling pump**

• **Programmable sampling time**

• **Response time** : according to the length of the sampling line.
Usually less than one minute.
